

Data sheet **dsound**[®] Accessories

Montage Adapter USS-MA

Mounting adapter for body sound pickup

Description

- Adapter plate for fixing the body sound sensor in the optimal position for inspection

Order information

USS-MA	Mounting adapter for body sound pickup
--------	--

Rotatable microphone holder USS-MH

Rotatable microphone holder including sensor spacer and screw reduction (5/8 to 3/8 inch)

Description

- rotatable microphone holder for flexible orientation of the microphone depending on the desired measurement position

Order information

USS-MH	rotatable microphone holder
--------	-----------------------------

Holding magnet USS-HM

Holding magnet for body sound pickup

Description

- flexible attachment of a body sound sensor on the machine, enables the testing and setting of the optimal position for inspection

Order information

USS-HM	Holding magnet for body sound pickup
--------	--------------------------------------

Microphone cover USS-MS

replaceable microphone cover

Description

- Microphone cover to protect the microphone to guarantee consistently good results also in industrial environments

Order information

USS-MS	replaceable microphone cover
--------	------------------------------

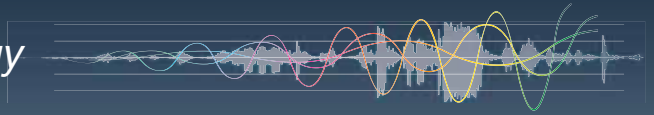

Earphones USS-KH

Description

- earphones for monitoring during the test

Bestellangaben

USS-KH	earphones for monitoring during the test
--------	--

Power supply unit USS-NT

Power supply unit 12 VDC / 500 mA
(for use with USS4- and USS5-Con box, USS5 Con-box CAN)

Description

- Power supply for the dsound[®] USS4 / USS5 sound sensors

Order information

USS-NT	Power supply unit
--------	-------------------

USB Adapter - Interface converter

Interface converter USB-COM RS232 / 422/485

Description

- for PC communication with dsound[®] USS5-sound sensors
- virtual COM port for sensor configuration

Order information

USB Adapter	Interface converter
-------------	---------------------

Mounting system rigidly USS-W18

Description

- immovable mounting of the sensor in the desired position

order information

USS-W18	Mounting system rigidly
---------	-------------------------

Mounting system rotatable W18S12

rotatable mounting system (VA, for mounting on Ø12 mm Round Profile)

Description

- Mounting of the sensor in the desired position, more flexibility of the sensor position by the rotatability of the system

Order information

USS-W18S12	Mounting system rotatable
------------	---------------------------
